SECTION 1: REPORT CONTENT

Title/Subject:	Planning and Delivering Care and Treatment across the West of Scotland
Meeting:	Integration Joint Board
Date:	28 th September 2017
Submitted By:	Julie White, Chief Officer
Action:	For Approval

1. Introduction

- 1.1 This Paper sets out the requirements for the West of Scotland Implementation Team to produce a first Regional Delivery Plan for March 2018 and to seek the support of Health Board and Integration Joint Boards to work collaboratively to achieve the best outcomes delivered sustainably for the citizens in the west of Scotland.

2. Recommendations

- 2.1 **The Integration Joint Board is asked to:**
- 2.2 **Agree to support the approach to work collaboratively with the West of Scotland group to achieve the best outcomes delivered sustainably for the citizens in the West of Scotland.**

3. Background

- 3.1 The Health and Social Care Delivery Plan published in December 2016 set out the importance of delivering:
 - Better Care
 - Better Health
 - Better Value
- 3.2 The Health and Social Care Plan signalled the need to look at services on a population basis and to plan and deliver services that were sustainable, evidence based and outcomes focussed. We can provide better patient outcomes and more efficient, consistent and sustainable services for citizens through NHS Boards, Integration Joint Boards and other partners working more collaboratively and effectively to plan and deliver services.

- 3.3 At regional level the Scottish Government has commissioned Regional Delivery Plans to be developed, encompassing a whole system approach to the delivery of health and social care for each of the 3 regions (North, East and West). For the West of Scotland this involves planning for the population of 2.7million to be covered by 5 NHS Board, 16 Local Authorities and 15 Health and Social Care Partnerships as well as the Golden Jubilee Foundation. The national NHS Boards are also developing a single plan that sets out the national services where improvement should be focused, including, where appropriate, a 'Once for Scotland' approach in areas such as digital services, clinical demand management and support services.
- 3.4 To take forward the national and regional approach, 5 Chief Executives have been appointed to the role of National and Regional Implementation Leads.

4. Main Body of the Report

- 4.1 To progress a Regional Delivery Plan it is essential to link this to national planning for specialist services, local planning within Health Boards and locality planning within Integration Joint Boards to ensure we plan effectively for the wider population.
- 4.2 It is recognised and understood that the existing Boards retain their governance responsibilities, however, to achieve this ambition:
- It is essential that Health Boards and Integration Joint Boards across the West of Scotland support a collaborative approach
 - We need to recognise that boundaries cannot be barriers to delivering evidence based outcomes
 - There needs to be transparency in discussions
 - We need to accept a collective accountability for the wider population, evidenced through our decisions and actions.
- 4.3 In taking forward this work, it is important that we are guided by some key principles, namely;
- Maximising health gain
 - Anticipation and prevention
 - Reducing inequality
 - Quality, evidence and outcome
 - Sustainability

5. Conclusions

- 5.1 This is an evolving process which will be achieved by working together across the different organisations in a whole system approach to set out the story for the West of Scotland, describing the current challenges and considering the opportunities to transform care models to meet the future requirements of our population and improve health.

SECTION 2: COMPLIANCE WITH GOVERNANCE STANDARDS

6. Resource Implications

- 6.1. No financial implications have been identified for Dumfries and Galloway Integration Joint Board

7. Impact on Integration Joint Board Outcomes, Priorities and Policy

- 7.1. The Regional Delivery Plan will link with the 9 national health and wellbeing outcomes

8. Legal & Risk Implications

- 8.1. No legal implications or risks have been identified as part of this paper.

9. Consultation

- 9.1. Not required at this stage

10. Equality and Human Rights Impact Assessment

- 10.1. No Impact Assessment was required to be completed during this process, however, this will be reviewed if required for future updates.

11. Glossary

- 11.1. NHS National Health Service
